## April is National Garden Month!

The first garden hoses were made around 400 BC, out of ox gut.  
The first European garden hose was made in 1672, in Amsterdam, and was made of leather.

The first wheelbarrow was invented by Chuko Liang, a Chinese general, in 231 AD, for use by his troops in moving supplies through muddy soil. The earliest picture of a wheelbarrow was in a stained glass window in the Chartres Cathedral, in France, dating to 1220 AD.
